	TOTAL points	100

The minimum technical score required to pass is: 75 Points

- The formula for determining the financial scores is the following:
($S_f = 100 \times F_m / F$, in which S_f is the financial score, F_m is the lowest price, and F the price of the proposal under consideration)

The weights given to the technical and financial proposals are:

$T = 0.75$, and $P = 0.25$

Combined score (S) = $S_t \times T\% + S_f \times P\%$, S_t = Technical score

- The Consultant achieving the highest combined technical and financial score will be considered as L-1
